

# Dank U Wel!

Thank you and congratulations on purchasing your new Kinderfeets Tiny Tot! The Tiny Tot is a Trike AND balance bike in one, You can start off with the Trike and convert it into a Balance bike when you wish. It provides an excellent starting point for children preparing to ride a conventional two-wheeled bicycle.

Designed by a Dutch designer and inspired by the bicycling lifestyle of the Dutch, Kinderfeets Tiny Tot is committed to providing an eco-friendly, design forward, quality push bike that encourages children and their families to live an active, creative, and adventurous lifestyle. Kinderfeets Tiny Tot is handmade and an award-winning wooden push bike featuring a patented design and a colorful variety of chalk-board finishes so every child can make Kinderfeets Tiny Tot uniquely theirs.

**Note:** The Kinderfeets Tiny Tot is a toy. It is not meant for public roads and must be used under adult supervision. Always wear a helmet, do NOT ride by hills, cliffs, busy streets, pools, etc.

## Assembling Your Kinderfeets Tiny Tot Trike

Remove all packaging and check that all parts are present

- 1 Slide front wheel into position as shown and push the axle through the opening. Make sure the spacers are on the outside of the wheels and inside the fork. Tighten with bolt so the wheels turns freely but bolts are tight. Slide long metal axle through rear wheels, washer and wooden dowels per image on the right. Tighten with bolt so the wheels turns freely but bolts are tight. Always check bolts before use.
- 2 Insert the frame into the opening of the fork, making sure the Kinderfeets logo on the fork is facing forward.
- 3 Slide the metal pin into the middle opening on top of the fork and through the frame. Insert screws and tighten.
- 4 The seat is set at its lowest position. To adjust the seat, loosen the 2 screws and take them out. Adjust the seat to the required position and re-tighten the screws.

## Assembling Your Kinderfeets Tiny Tot Balance Bike

Remove all packaging and check that all parts are present

- 1 Slide wheels into position as shown and push the axle through the opening. Make sure the spacers are on the outside of the wheels and inside the fork. Tighten with bolt.
- 2 Insert the frame into the opening of the fork, making sure the Kinderfeets logo on the fork is facing forward.
- 3 Slide the metal pin into the middle opening on top of the fork and through the frame. Insert screws and tighten.
- 4 The seat is set at its lowest position. To adjust the seat, loosen the 2 screws and take them out. Adjust the seat to the required position and re-tighten the screws. Always check bolts before use.

**Precautions:** Before using the Kinderfeets, please ensure it is assembled correctly and that all screws and parts are fitted securely. Make sure the fork and saddle are properly secured and keep an eye out for signs of wear and tear, damage and defects. Don't overtighten the screws.

Clean your Kinderfeets with mild detergent, clean water and a sponge/cloth. The chalk drawings on the chalkboard can just be wiped off with a dry or moist sponge or cloth. The seat cover can be washed by hand with warm water and mild detergent. Store your Kinderfeets somewhere dry when not in use.
